period of time after an unsuccessful access attempt, a minimum password length parameter, a maximum password length parameter, a parameter to prohibit passwords consisting of a natural language word, a parameter to prohibit passwords consisting of a palindrome, a parameter to prohibit passwords consisting of a derivative of a computer system account name, a parameter to automatically generate a password, a parameter to automatically generate a pronounceable password consistent with all of said plurality of password policies, and a parameter to specify a set of characters utilizable to automatically generate a password.
